Claims 1 – 11, 21 and 22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the cited prior art neither teach nor fairly suggest a method of labeling a sample, comprising: conveying the sample through a channel having a first virtual wall fluid interface port, the first virtual wall fluid interface port comprising a first opening formed in a side wall of the channel, the first opening sized and dimensioned such that a fluid within the channel forms a virtual wall in the first opening to define the first virtual wall fluid interface port; separating the sample in the channel into a plurality of bands; and injecting a labeling solution through the first virtual wall fluid interface port, wherein the labeling solution interacts with one of said bands to form a labeled band.
